

FIRST QUARTER NEWSLETTER

2016 / 2017

“Dear Parents, our ultimate goal this year is to present innovative learning experiences, giving the children a platform to perform on, and unleash their unapparent talents.

We believe that it is of paramount importance to boost the students' confidence, and equip them with necessary knowledge and skills. Planned activities have proven to be a great way to engage kids on every level. Accordingly, a variety of activities were implemented, to meet our students' needs and talents.

Reading, role plays, hand crafts, singing, cooking and photography, all of which reveal how far the school will go to help students achieve their maximum potential.

Please remember that we're all in the same boat, we share the same destination and aspirations. We're partners in the education process, so kindly do your best to stay connected with your kids, and share their reading and playing time.

And lastly, don't forget to tell them how much you love them.”
